

18.5 21.5 Pilobolus crystallinus ✓ pale 9.5 x 6

26.5 Sordaria imm broad

31.5 Cop. leptoneurus ✓ T. rams ✓

Sordaria 24 x 14.5 w sheath visible ✓

Ascobolus albus white, spore humana 23 x 10 asci hardly blue ink ✓

Sporomella ger 35.3 x 7 antrax ✓

Ascobolus with broad spore then varved
albus apothecia St. canos intracere albus-type api

Spore with platybl close cracks

Spore 19.5-22 x 12.5 unilateral gel
asci v.st. blue ink

4.6 Cop. leptoneurus

Cop lanakii T. rams Sordaria mexicana

Saccobolus hyaline apo. rough 3+3+2 spore 4.5 x 1.6
versicolor ✓

24.6 Cop lanakii spore 6.5 x 4.5 I rectangular - shagreened

iodophanus canos ✓ flamantifer ✓

Schizothecium vestigium ✓

2.7 Cap ~~sterconeri~~ 1 caney 
Cap frumentifera Sch. conicum 27 x 14.5

Yellow spherical gynothece Schi vestigiosa
 asci spherical & sp. 6 um dia Spores long ca 2-2.5
 6 um dia sp. ellipsoid.

no gynothece sheath visible 
Sordaria 22.5 x 16 thin gel

Sacc. vermicular

rfps brown gynothece humana 350 dia
 hairs anastomosed below, with
 long extensions up to 130, hooked at
 top (cf walking stick) Spores ca 3-4
 lat-septate spores 4.5 under oil with
 suggestion of linear grooves

Gymnascus? cf. californiensis 

31.7 Yellow dasko?

Spores ca 2.5-3 dia? 
 ascus? unyx?

Sch. vestigiosa 

Asp. ~~terre~~ small pale yellowish 120-160 dia
 Ascii biseriate ca 35 x 9 Spores hyaline ellipsoid 6 x 3
 pores not obvious operculate 

Dried 31.7

Coprinus sp 2
